

THE INTERIOR JOURNAL

Established 1860—58th Year. No. 35

Stanford, Lincoln County, Kentucky, Tuesday, May 1, 1917

TO THE DEMOCRATS OF LINCOLN COUNTY:

Some three months ago I announced myself a candidate for the office of County Attorney. At the time I did so I believed that Mr. Burch, the present incumbent, would not be a candidate to succeed himself; first, because he has held the office three terms, and second, because of his ill health, as it is a well known fact that he has been physically unable for nearly a year to attend to the duties of the office and another had to fill the position at an extra expense to the County.

I was reliably informed at the time of my announcement that Mr. T. J. Hill, Sr., father of T. J. Hill, Jr., would soon announce for Sheriff and that would naturally have prevented, from a political standpoint, his son from being a candidate for County Attorney. However, only a few days ago Mr. Hill, Sr., announced finally he would not run for Sheriff and his son then announced for County Attorney.

Mr. Burch and Mr. Hill both have a right to run, but I want the voters to understand under what circumstances I entered this race.

I wish the voters furthermore to understand that if I am elected I shall oppose the acceptance of State Aid for pikes as it is undoubtedly too expensive for the amount of our revenue, and is also unfair to pikes in different sections of the county where by law the use of the State Aid is forbidden.

The pikes just recently remodeled, cost as I am informed, about three thousand dollars per mile and in the construction of these roads there now remains a large deficit, which must be paid out of the road fund this year, leaving only about \$7,000 to be used for pike and dirt road purposes this year.

This will not by any means even repair the pikes that are in dire need at present of work and of necessity, in another year will be in a dreadful condition. I favor good roads and believe that they are essential to the prosperity of our county, but I do oppose a system which will bankrupt our county to build a few miles of pike and at the same time let the remainder of the pikes become impassable.

I shall advocate before the Fiscal Court of our county the building of good serviceable and durable roads all over the county as far as your revenue will permit, but I shall oppose exceeding the revenue for any year as our highest Courts have held should not be done. I shall advise an equitable and fair distribution of the road fund over the entire county.

I am in favor of improving all of our dirt roads and paying for hands and teams as liberal wage and hire as the revenues of the county will permit.

I have always voted for local option every time the question has been submitted since I have been a voter, and in regard to the violation of the local option laws, I shall prosecute them and every other violation of the law to the fullest extent without showing any favoritism.

I feel that my experience as Commonwealth's Attorney for eleven years and County Judge for a period of two years of this county has qualified me for the position which I seek. During my term as Commonwealth's Attorney I was only absent three days during the entire period and this record should prove to you that I was faithful in the discharge of my duty and never shirked.

I shall endeavor to see each voter personally before the election and appeal to you to elect me to this office.

Yours, respectfully,
J. S. OWSLEY.

MARRIAGES

William Estes, a well-known Gardner county farmer, and Miss Odessa Young, of Lancaster, were married last week.

Edgar Sandlin and Miss Nola Vice surprised their many friends last Saturday afternoon by repairing to the home of D. F. Wallace, where they were united in wedlock's holy bonds.

The marriage of Miss Marguerite Camp to Mr. J. Briscoe Harmon will take place at the home of the bride's parents, Mr. and Mrs. S. C. Camp at Perryville this afternoon. The following young women will be attendants: Misses Elizabeth Bruce, Hallie Harbison, Ovie Powell, Samantha Carpenter, Lora Parks, Gertrude Green and Katherine Camp. Mr. P. H. West will be the best man. The bridesmaids will be attired in the colors of the rainbow.

A SYMBOL OF HEALTH

The Pythagorians of Ancient Greece ate simple food, practiced temperance, and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.

RIDE WITH HARRY WEST.

Harry West has bought a brand new Ford touring car and invites his friends to ride with him when they want good auto livery service. Call him by phone when you want to go anywhere. He will take you in a hurry and bring you back the same way.

WIND DAMAGES WEST END.

The wind of Monday afternoon did considerable damage in the West End of the county. A number of trees and fences were blown down and Squire W. M. Field's silo on the T. L. Carpenter farm was destroyed together with a lot of feed.

SOME FISHERMEN ARE THESE.

Mike Penny is Stanford's boss fisherman. He caught a six-pound big mouth bass while fishing in the water works lake Saturday morning, which was probably the prettiest fish ever taken from that water. It was on exhibition at The Penny Drug Store that morning and attracted almost as much attention as a circus would have. Mr. Penny encountered some difficulty in landing the big fish, but he finally made it and was well repaid for the energy spent in doing so.

Mr. Bright Lands Good One.

Cashier W. M. Bright, of the Lincoln County National Bank, is some fisherman himself. He landed a four-pound big mouth bass out of the pond on his place the other day, and it wasn't a good day for fishing, either.

Frank Rout Gets His.

B. Frank Rout, manager of the Stanford Water, Light & Ice Co., took a few moments from his duties the other day and caught one fish weighing 4 1/4 pounds and another weighing a little more than five pounds.

If you want to catch the Big Ones, use our Tango, Baby Crab or Tandem Spinners. The Penny Drug Store.

STICK TO YOUR PROMISE

Some complaint is made by the Woman's Club ladies that there are those who signed an agreement to take Chautauqua tickets and are declining to do so, giving various excuses. This is not as it should be. Every good citizen wants to make his word as good as his bond, and will do so in little as well as big things.

The signing of the cards given out at the wind-up of the Chautauqua last year is a direct contract and those who signed them could be made to take the tickets they agreed to, but of course, the ladies do not propose to go to court about such a matter. The Woman's Club has obligated itself to pay the Chautauqua people a certain amount and they will have to do so. The Club is bringing the attraction here as much for your pleasure and entertainment as for its members. Don't let your failure to make good your obligation get them in a hole, but on the contrary do as you promised and begin now to boost the Chautauqua. The big attraction is just a month off. Tell your friends about it and make your arrangements to go from May 27 to 31, without missing a single attraction.

THROWS CHILD OUT OF CAR.

A girl, between 16 and 17 years old, who afterward proved to be a Miss Barrett, of Jackson county, was arrested at Artemus, Knox county, last week on the charge of killing her baby, about a month old. She boarded the train at Wildie, Rockcastle county, with her baby in her arms, and when passing through a tunnel between Wildie and Sinks, threw the little thing out of the car window. The track walker, who happened to be only a short ways behind the train, found the infant and taking it to a home nearby, tried to resuscitate it, but its little light went out and all was over with the unfortunate child. Officials of Rockcastle county were notified and Miss Barrett was followed to Artemus, and brought back to the county of her crime. The Rockcastle grand jury was in session at Mt. Vernon, and she was taken before it, and it is understood that at her trial she was given a term of three or four years in the Reformatory. Her extreme youth saved her from a severer sentence.

WOMAN'S CLUB LADIES BUSY.

The members of the Woman's Club are as busy as bees just now. They have on their hands the Chautauqua, May 27 to 31, inclusive, and the oiling of the streets. While they are putting in every lick possible for the Chautauqua, they realize that it is urgent to have the streets oiled and a committee is canvassing the town for money with which to help pay for the oil and putting it on.

The city council will help pay this expense, but its members did not feel that the treasury was sufficiently well filled to do the work alone, hence the good women came to the rescue of the people generally and soon the dust nuisance will be abated. Oil is an absolute necessity, as has been conclusively proven, and it is nothing but right that those who get advantage of it should pay for it. Therefore when the ladies call on you to help finance the laudable move, do the best you can for them. Dust is objectionable from every standpoint and it is quite as unhealthy as it is disagreeable. For a few dollars we can rid ourselves of the nuisance. Do you know of a better investment?

His many friends regret his stroke of bad luck.

DR. O'BANNON FOR REPRESENTATIVE

Dr. W. B. O'Bannon, chairman of the democratic county committee, a physician of much prominence, a good citizen and a democrat in whom there is no semblance of guile, announces this issue his candidacy for Representative in the General Assembly. The doctor cast his first vote in 1876 when he lived in Missouri, but moving to this county in 1883, he has been voting under the roster with this people since. Dr. O'Bannon first moved to Kings Mountain, where he practiced his profession for ten years, and from that place came to Stanford, where he has resided since. He knows pretty nearly every person in the county, is liked by them all and the news that he has decided to make the race for Representative will be received with delight by his friends in every nook and corner of the county. "By Joe" will be a hard man to beat; it matters not who is in the race or who may enter later on.

AN UNFORTUNATE ACCIDENT

The horse driven by Mrs. Sophie Zurbrugg and niece, Miss Bertha Uhlman, scared at the auto driven by Mr. and Mrs. T. W. Jones on the Somerset pike near town Friday afternoon and ran away. The girl was thrown out of the vehicle and sustained a broken ankle, which it is feared will render her a cripple. Mrs. Zurbrugg very fortunately remained in the spring wagon and only received a sprained wrist and a very bad shake-up. The two were cared for by Dr. Southard and were later taken by Mr. and Mrs. Jones to their homes.

The horse was considered an unusually gentle one and had frequently come by autos without showing signs of fear. This time the animal seemed to have gone wild. No blame whatever can be attached to Mr. Jones, who with his wife did everything possible to alleviate the pains of the ladies and saw that they were landed safely at home.

Miss Uhlman has been brought to Dr. E. J. Brown's sanitarium and is said to be getting along fine.

MANGLED BY LIGHT ENGINE

Fred Ballard, aged about 35, was run over and killed by a light engine short ways South of the bridge near Brodhead Friday night. His body was fearfully mangled. He was seen late that night in an intoxicated condition and it is supposed that he fell on the track. Blood on a light engine was discovered on its arrival at Livingston and this caused an investigation. John Nevius, of the city, who is a flagman, discovered the body as his North-bound freight was pulling out of Brodhead early Saturday morning. Ballard was a son of Jack Ballard, for many years a resident of Brodhead. He left no family.

Wesley Hughes, an excellent citizen and a good democrat of the McKinney section, announces this issue for the office of magistrate of the Hustonville district, subject to the action of the primary of Aug. 4th. Mr. Hughes reluctantly entered the race, but his friends insisted and now having gone into it, he proposes to do all in his power to win the nomination. He has lots of friends and staunch supporters and that he will make a good showing, no one who knows him well will gainsay.

The Danville Brass Band will furnish music for the Vernon Sale Saturday, May 5th. Come and hear it.

As An American

oil tanker Vacuum was sunk by a German submarine and it is feared that an American naval Lieutenant and some of his gun crew of nine men perished in the disaster. The captain and several of the crew of the Vacuum are known to have been drowned. While returning to the United States from a trip to Europe the Vacuum encountered off the coast of Ireland the submarine which gave her a death wound. Scant details of the sinking are available and it is not known whether the Americans were able to bring their guns into play or if the vessel was torpedoed and sunk unwarned.

In a powerful attack in the Champagne region the French troops captured several fortified lines of trenches in the neighborhood of Mont Carnillet to a depth of 580 to 1,000 yards, according to the War office report.

The three-mile stretch of territory from Arleus-en-Gohelle to Gavrelle is still the scene of great battles for supremacy between the British and the Germans. Another trench system—a barrier to the forward march of Field Marshal Haig's forces toward Douai—has been taken over a front of a mile in most sanguinary fighting. The new position lies south of Oppy and runs almost to the outskirts of Gavrelle. Berlin has admitted the loss to the Canadians of Arleus-en-Gohelle and to other parts of Field Marshal Haig's army at Oppy and positions near Gavrelle and Rouex, which are characterized as "advanced positions."

The German War Office adds, however, that except for Arleus all positions were regained and that the British suffered extraordinary heavy losses. Since the recommencement of the offensive Saturday the number of prisoners taken by the British has materially increased, nearly 1,000 Germans having been sent to the prisoner cages back of the fighting line up to Sunday evening.

Both Senate and House voted approval of the Administration's proposal to raise a great war army on the principle of selective conscription, voting down by overwhelming majorities volunteer army amendments around which opponents of the Administration plan had centered their fight, and passing the Selective Draft Bill without material change in the more important provisions written into it by the army General Staff and approved by the President. The vote in the House was 279 to 24 and in the Senate 81 to 8.

The British and French war missions rededicated their united efforts to democracy Sunday in impressive ceremonies at the tomb of George Washington at Mount Vernon. A wreath was placed on the tomb by Arthur James Balfour as a tribute from England, and the French through former Premier Viviani and Marshal Joffre accorded to the Father of the American Republic the highest honor within the gift of France by placing a bronze palm leaf on his final resting place.

The expectation in Peking is that China within two weeks will declare war on Germany. Already a special Commission for International Affairs has advised the Government that China should take her place beside the United States and the Entente Allies as an antagonist of Germany, and Parliament is soon to decide finally the question of China's participation.

The bill being drawn by a subcommittee of the Ways and Means Committee designed to raise \$1,500,000,000 additional taxes per year for war purposes would lower the exemptions on incomes to \$1,000 for single men and \$2,000 for married men. Increased taxes on whisky, beer, cigars, cigarettes and tobacco and new taxes on automobiles, amusements, soft drinks and various kinds of stamp taxes are proposed. Opposition to features of the measure is arising, it is stated.

It is the hope of France and the dread of Germany that the United States flag will soon fly in the trenches of France, according to a statement made by Marshal Joffre to American newspaper men. The soldiers of the two republics fighting shoulder to shoulder can hasten the end of the war, he declared.

The Army Draft Bill, passed Saturday by both houses of Congress, will come up today for reformation. It is possible final action may be delayed by La Follette and others in attempts to attach amendments.

In the first two months of unrestricted warfare the Germans destroyed 1,000,000 tons of shipping, according to a statement made before a Reichstag committee by Dr. Karl Helfferich.

Kentucky has raised only 884 men of its quota of 4,578 in the army, while Indiana has enlisted 2,712, of her quota of 5,400.

The German casualties at Arras are placed at 200,000 by the Paris war report.

CAUGHT THREE "SHINERS"

Deputy Collector H. Rowan Sauley is back from Harlan county, where he went with Deputy U. S. Marshals C. L. Winfrey, Morton Ford and Stanton H. Thorpe, in search of moonshiners. They were successful in capturing three—White Cox, his son, Granville Cox, and Cyrus Politt. They also arrested Mildred Lee, wanted on the charge of bootlegging. The latter will face the additional charge of using threatening language toward and cursing President Wilson. The quartet was brought to Pineville where they were taken before Commissioner Inman, who held them over to Federal court. A good-sized still was destroyed on the raid, which was full of interesting incidents to our townsman.
